

Emily Castronova

“Harvesting Hope” by Kathleen Krull describes how hard Cesar Chavez worked for his freedom. He was a great civil rights activist. Cesar was kind, strong, daring and so much more. Being brave, hardworking and successful made Cesar a great humanitarian. A humanitarian is a person who fights for human rights. A popular humanitarian is Martin Luther King Jr. Like Cesar Chavez, Martin Luther King Jr. fought for human rights peacefully which is an amazing and hard thing to do. Cesar Chavez had to be brave, hardworking, and successful when he was younger, and when he got older.

Cesar was very brave, and he never gave up. “When Cesar’s mother couldn’t stop crying” it was really hard for Cesar to stay strong. He could have gave up and stopped but he didn’t. Cesar stayed strong even when he was older. It would be super hard to be organising a peaceful march the police didn’t even support him. “Thirty of whose members (police members) locked arms to prevent the group from crossing the street,” but Cesar stayed strong.

Cesar was also very hardworking, even when it was hard. When he was picking crops in fields, “Nearly every crop cause torment.” He couldn’t escape it, yet he kept working hard. In doing this it made him a better humanitarian, because of how hard he worked. When he got older, “He organized a march,” and it worked! Even though the sun beating down on him, and suffering through the blisters on his feet, he kept working hard. Doing both of those thing are very hard, and Cesar kept going.

It’s quite obvious that Cesar Chavez was successful. Not only was he successful when he won the march and signed the National Farm Workers Association, but other times too. When he was marching and the police blocked the way, “After three hours of arguing-in public-the Chief police backed down” That’s definitely success. Cesar was very modest in his success, and that made him even more successful

Cesar was very brave, hardworking, and successful both when he was younger and when he was older. He was successful because he worked hard and was brave. Because of Cesar still serves as an excellent role model for us today, because of his character and how hard he worked. He is a great example of caring about how other people feel instead of just think about yourself.
